

# As Promised We Are Growing To Meet Your Needs

## Mazak Nexus 350-II MY

12" and 15" Chuck

29.5" Swing

60" Between Centers

4.4" Spindle Bore

Multi-Tasking in the machining world is the combining of processes which were traditionally done on multiple machines. The ultimate goal is to turn, mill, drill, tap, bore and finish the part in a single setup. "Done-In-One"

Which means better lead times, and lower production cost.
